For more than 40 years we've been committed to serving government customers as they deliver mission-critical work. Microsoft Federal is here to meet these evolving needs and make certain we are in the best position to deliver the latest in cloud innovation direct to the U.S. Federal Government. We are a U.S. team that is fully dedicated to meeting the mission needs of our US Federal Government customers.

Session Sponsor

Cloud solutions optimized for the Centers for Medicare and Medicaid Services (CMS)

Microsoft Azure provides cost-effective solutions through artificial intelligence and analytics, mainframe modernization, app innovation, and elegance in platform and software-as-a-service.

Deliver trust at scale

Azure's highly secure cloud foundation helps modernize security by enabling Zero Trust architecture and offering multi-layered, built-in security controls like data classification, multi-factor authentication, encryption, and endpoint detection and response.

Microsoft Azure Government (MAG) cloud

MAG cloud supports Linux, Windows Server, open-source databases, and services from partners like Databricks and Snowflake. Azure PaaS, containers, and serverless offerings provide zero infrastructure management, dynamic scalability, and per-execution pricing.

Azure API for FHIR®

A new tool to help health systems interoperate and share data in the cloud. The API now gives you the ability to integrate FHIR-enabled electronic health records (EHR) data with Microsoft Teams.

At Takeda Oncology, we aspire to cure cancer, with inspiration from patients and innovation from everywhere. We ensure a tight connection from research to development to commercialization to meet the needs of the cancer community, optimizing our ability to bring potentially transformative medicines to patients. Our demonstrated leadership in the treatment of hematologic cancers and solid tumors combined with cutting-edge science through multiple platforms, partnerships and therapeutic approaches, enable us to bring novel medicines to patients worldwide.
