NITAAC (NIH Information Technology Acquisition and Assessment Center) is housed within the Department of Health and Human Services (HHS) at the National Institutes of Health (NIH), and is a full service acquisition program that has been designated a federal Executive Agent, authorized by the Office of Management and Budget (OMB) to administer three Government-Wide Acquisition Contracts (GWACs) for information technology (IT) acquisitions.

CIO-SP3, CIO-SP3 Small Business, and CIO-CS can be used by any federal civilian or Department of Defense (DOD) agency to acquire information technology services, solutions, and commodities from pre-qualified vendors at lower than open-market prices in less time than going the traditional full and open route. But we're not just a GWAC program anymore, NITAAC has expanded its support including an Assisted Acquisitions program, and is one of three OMB mandatory sources for laptop and desktop buys through our NITAAC Government-Wide Strategic Solutions (GSS) program.

MISSIONS ACCOMPLISHED

Why wait months and months for RFPs/RFQs to go through when NITAAC can facilitate IT solutions in 45 days or less? With three Best in Class Government-Wide Acquisition Contracts, our OMB-authorized program gives you access to innovative IT, streamlined acquisition, secure online ordering and some of the lowest rates/prices. Give us a call today to see how we can help, no matter how many missions you support.
