Omelas

Richard Henrichsen

(410) 474-7564

rich@omelas.co

www.omelas.io

Omelas brings together the world's best developers with field-defining experts in defense and diplomacy to identify and analyze misuse of the world's most powerful communication tools. We began by applying the tech advertisers use to understand why people become loyal to brands to understand why people become loyal to terrorist groups. We've since expanded to propaganda of all kinds with a focus on Great Power competition.

Event Exhibitor

Predata

Bob Deppisch

1201 Pennsylvania Avenue Northwest, Floor 6

Washington, DC 20004

(510) 282-1802

bob@predata.com

www.predata.com

In an age of infinite online content, measuring the finite distribution of human attention tells the real story. Predata is the only web-based analytics platform that focuses on how online audiences consume and research information — an underutilized data source that represents nearly 90% of all Internet activity. Unlike industry-standard tools that monitor online content creators and their engagement on social media, forums, and other news sources, Predata's patented methodology turns anonymized web traffic metadata into quantifiable measures of attention to individual narratives, topics, and themes.

Silver Sponsor

Peraton

Dana Ayers

12975 Worldgate Drive

Herndon, VA 20170

dayers05@peraton.com

www.peraton.com

Peraton is a next generation national security company which has grown to be one of the largest services-oriented companies in the industry through acquisitions of Perspecta, the IT and mission support assets of Northrop Grumman and ViON's aaaS business. We support missions of consequence across the intelligence, space, cyber, defense, citizen security, health, and state and local markets.

Lunch Sponsor

The Peraton logo is located in the top right corner. It features the word "Peraton" in a white, sans-serif font, with a thin horizontal line passing through the letter "e".

Peraton

The background of the advertisement is a dark, abstract digital landscape. It features a central, glowing blue and white geometric shape that resembles a stylized 'V' or a folded piece of paper. This shape is surrounded by a grid of small, colorful dots (red, orange, yellow, green, blue) and lines, creating a sense of depth and complexity. The overall aesthetic is high-tech and futuristic.

INVISIBLE THREATS WON'T TAKE A DAY OFF — AND NEITHER DOES OUR APPROACH TO CYBERSECURITY.

In today's world, cybersecurity is not optional. Cyber risk is everywhere, but it can't stand in the way of the mission. We apply cybersecurity measures at every level of our solutions — from the data, to the network, to the actual systems and platforms so that they can withstand, deter, and defeat the invisible threats they will encounter.

WE'RE YOUR ANSWER!

FBC is a professional organization providing meeting and conference support for the DoD, Intelligence Community, and Federal Civilian Agencies since 1976.

The Federal Business Council (FBC) has established a proven track record of excellence in coordinating military events. We are experienced in every level of program advisement and specialize in the unique needs that our military partners encounter. Work with FBC on your next event through GSA Schedule 47QRAA20D0014 and use the "No Cost Option" available to all DoD, Civilian, and Intelligence Agencies. Whether you are coordinating training for your company or leading a base wide specialty event, FBC can support your program with web design/ hosting, attendee registration, name badges and staff that will ensure that your event is a success.

Steve Tourangeau
18 Beacon Way
Milford, NH 03055
(603) 459-3151
stourangeau@rvjinstitute.org
www.rvjinstitute.org

The Reginald Victor Jones Institute (RVJI) is a 501 (c)3 research institute and Center of Excellence (CoE) stood up to concentrate on challenges in the electromagnetic environment. Unlike think/knowledge tanks, FFRDCs and UARCS that are devoted to many different disciplines, the RVJ Institute is dedicated exclusively to researching erudite strategic and tactical solutions for Electromagnetic Spectrum Operations (EMSO) for the DoD. It is the only CoE in the world focused solely on achieving freedom of action in the EMS. It is the one-stop shop and go-to authority for erudite EMS related research, studies, and analysis to forge successful operations in the invisible frontier.

2200 East Germann Road, Suite 150
Chandler, AZ 85286
(844) 998-3950
Dorina.brown@trident.edu
www.trident.edu

Trident's learning approach helps you prepare to take your education further than you thought possible. Part of a regionally accredited University system¹, Trident comprises three key differentiators designed to create a dynamic learning approach. First, EdActive™ Learning is unique because the learning outcomes are designed to help our students prepare for the workplace by enhancing their ability to think, learn, and solve problems. Second, our programs are 100% accessible online, combined with no daily micromanagement, which promotes a flexible learning environment that enables adult learners to study at a manageable pace. Finally, affordability is important for our students. We keep our tuition costs as low as possible, so the students receive a quality education at a great value.
